Carpet Roll and Carpet Pad Stack Rack

Dyna-Rack's Carpet Roll and Carpet Pad Stack Racks are made to store long rolls of product and utilize the verticality of your facility.

Designed for tightly rolled carpet pads, but perfect for long products of all types, these stack racks can store up to 2000 lbs each and stack up to four high.

Carpet rolls and carpet pad can use valuable space when stored on pallets. A Dyna-Rack Carpet Roll and Carpet Pad Stack Rack allows the carpet or padding to be stacked in a dense bundle. This optimizes for up to three times as many rolls per pallet position than in standard rack and shelving, multiplied by the number of racks stacked vertically.

With removable and replaceable posts, these racks disassemble for nested storage when not in use, making it easier to store the storage equipment itself.

Keep heavy, long inventory accessible, movable, and secure with the Carpet Roll and Carpet Pad Stack Racks.
