Passenger Tire Stack Rack

Dyna-Rack's passenger tire stack racks were designed to hold passenger vehicle tires for storage, shipping, or display.

Easily store 24 standard size tires in four columns on one rack or discover what works best for your inventory. With the wire bottom, tires of multiple sizes of can be stored in different configurations for better efficiency of space and more flexibility with stocking a diverse portfolio.

Take your storage higher and safer. Passengers Tire Stack Racks can be stored up to five racks high. Use your space more effectively without risking crushing tires. Move a loaded rack and eliminate material handling time by always being ready to get to your products.

With removable and replaceable posts, these racks disassemble for nested storage when not in use, making it easier to store the storage equipment itself.

With Dyna-Rack Passenger Tire Stack Racks you can move faster knowing your inventory is stable and easily accessible.
